Education

California State University, Fullerton   Fullerton, CA
Bachelor of Science in Computer Science   2027
Minor: Entrepreneurship
Honors Program

Experience

Soft School   Remote
Co-Founder, Lead Developer   July 2025 - Present
· Designed and developed a full-stack web and mobile learning platform using
PostgreSQL for structured lesson and user data management
· Developed interactive lesson challenges and game mechanics, enhancing user
engagement and learning retention
· Applied UI/UX and graphic-focused design to create visually appealing software
for a younger audience
· Managed project scope, features, and coordinated development cycles, gaining
experience in startup operations and business decision-making

Euphaurix Ltd.   Remote
Creative Team Lead   May 2021 - April 2023
· Lead a team of 3D modelers to produce digital assets synchronized with game
development
· Coordinated design with development teams, facilitating feedback and maintaining
consistency in quality between graphical and developmental products

Independent Projects

Soft School (Mobile)   October 2025
In-Progress
· Developing a cross-platform mobile version of an existing lesson-based learning
platform using Flutter and Dart
· Implementing interactive lesson challenges, progress tracking, and real-time data
synchronization with the existing PostgreSQL backend.
· Applying software architecture principles to ensure scalable, maintainable, and
responsive mobile app performance.

Freelance 3D Modelling

· Produced custom 3D assets for clients, used in a graphical or game-development setting

· Applied 3D modeling, rendering, and basic animation to create high-quality digital assets tailored to client specifications.

· Gathered experience in creative workflow and increasing proficiency in Blender, Blockbench, and other graphical software

Skills

Programming: Python, C#, Java, Javascript, HTML, CSS, React, React Native, Flutter, MySQL

Tools & Software: Eclipse IDE, Blender, Blockbench

Language: English (Native), Tagalog (Prof. Working), French (Limited Working), Japanese (Elementary)
